

Quickly and easily present your best self

Help students reach their full potential, particularly as they embark on critical early career milestones, like applying for a scholarship, seeking internship, engaging in volunteer work or finding employment.

TruTalent® recognizes the pivotal role of a student's first resume in these pursuits. Our resume service grows with them and enables them to present themselves favorably, showcasing their unique strengths and experiences right from the start!

Sophisticated, yet simple

Build resumes and cover letters on a computer, tablet or smartphone in three easy steps:

1) Build a portfolio with ease

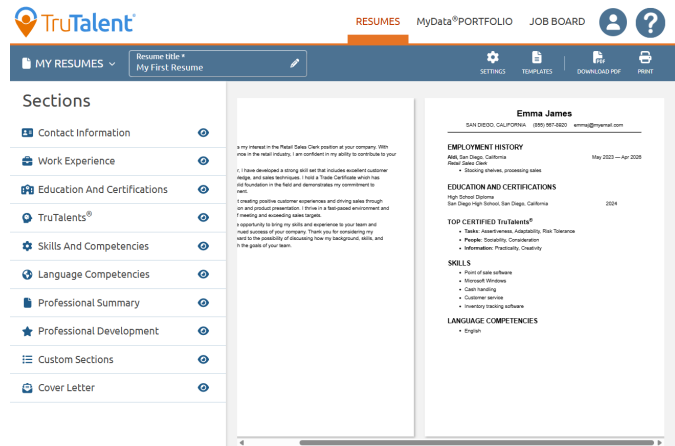

Ensure key information is included with a guided, step-by-step process. Select from content suggestions for technical skills and personal skills based on the desired position. Existing resumes can be imported within minutes for review.

2) Craft unique resumes

Choose what to show (or hide) from MyData® portfolio and select from one of the many design templates, available colors and fonts to best represent an individual. Feel great knowing that the finished resume is applicant tracking system (ATS)-friendly and more likely to be seen by the right people.

3) Ready for every opportunity

Add a cover letter of your own creation or generate a draft based on portfolio information. Easily download the completed resume or print it for easy sharing any time.

Learn and share certified TruTalents®

TruTalents are the qualities organizations seek in an employee, with different jobs requiring different TruTalents. Students can discover their top qualities by taking the TruTalents assessment and sharing it on their resume.

Grows with individuals' accomplishments

As new strengths are developed, add or edit experiences and skills in MyData portfolio to automatically add them to new resumes and easily update existing resumes, saving time when another opportunity presents itself.

Trusted, secure access

We applied 28 years of experience building proven student success and career development programs to resumes. Like all our other programs, information is securely stored within an individual's account. Help is available within the service or at support.trutalent.com.
